

MARIPOMA MINING SERVICES COMPANY PROFILE

maripoma mining services

COMPANY OVERVIEW

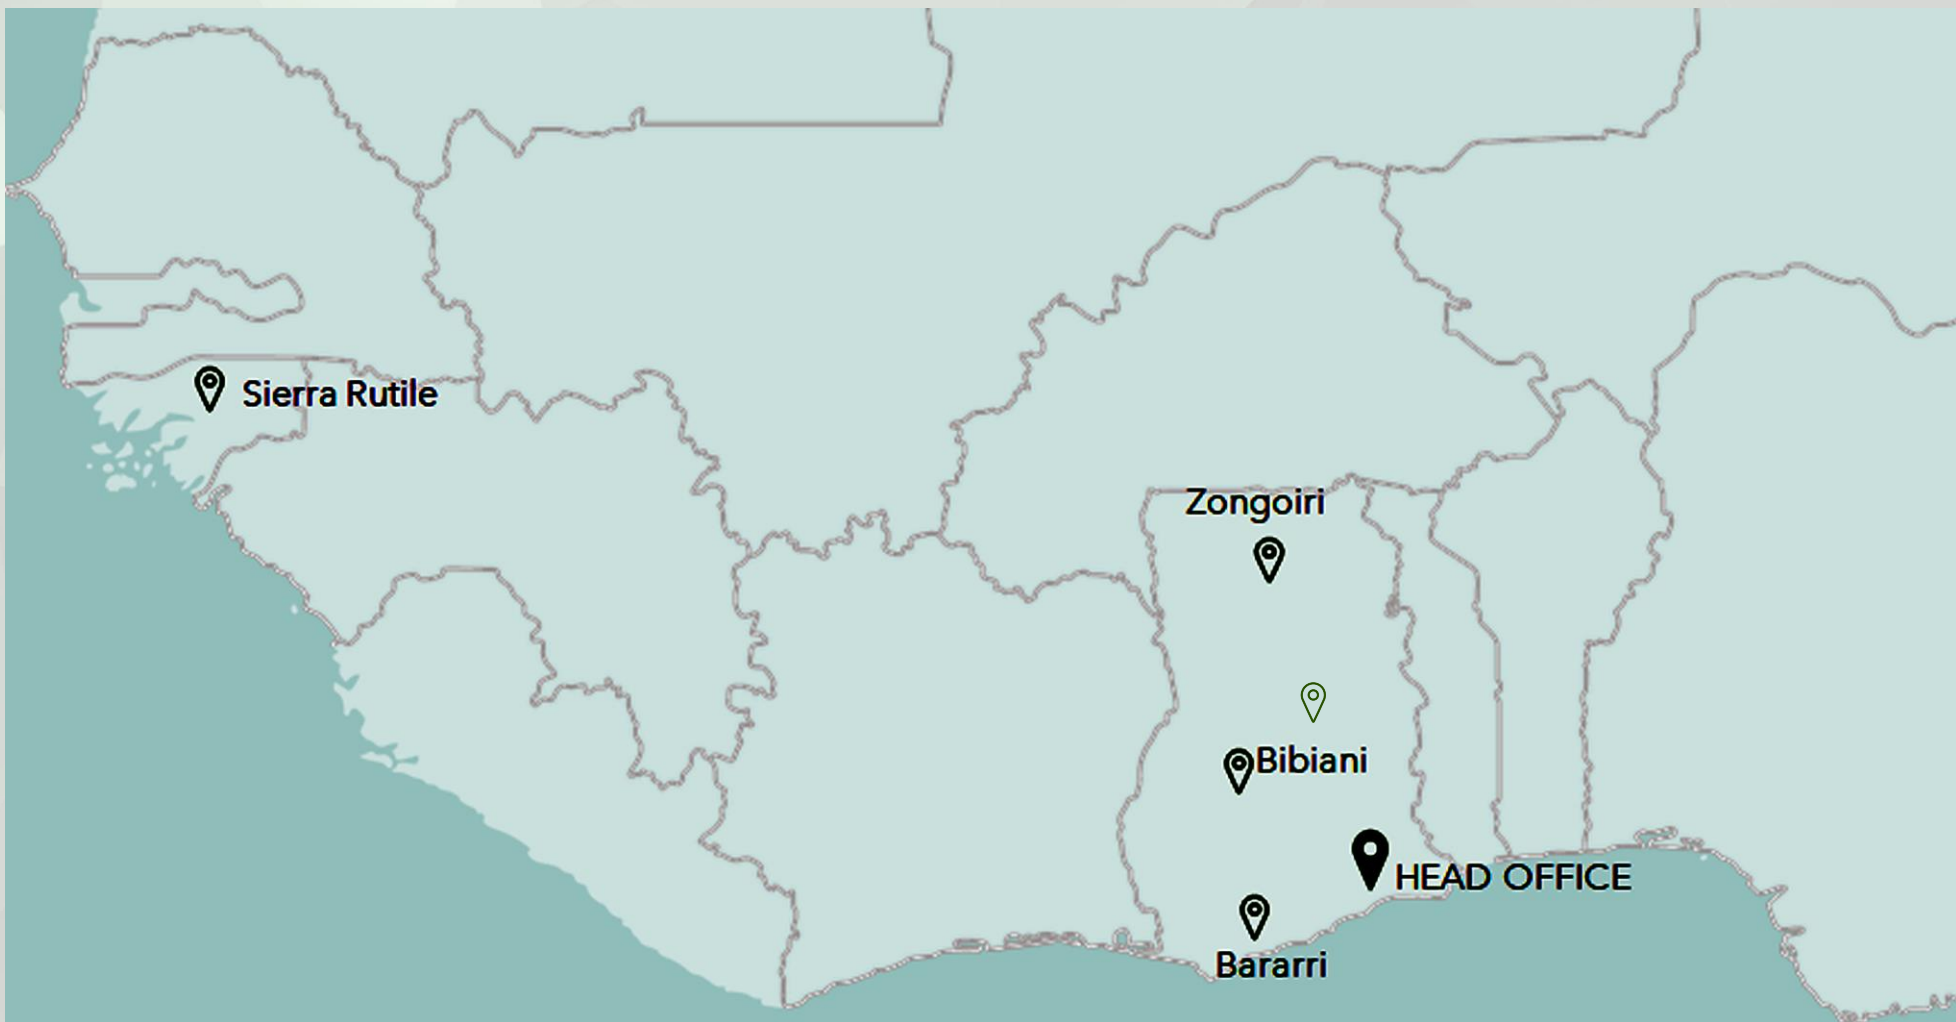

Maripoma Mining Services (MMS) is a subsidiary of Maripoma Enterprise Limited (MEL), specializing in open-pit mining management, logistics, and mining support services across Ghana and Sierra Leone. With a proven track record of delivering high-value mining projects, **MMS** is a registered Mining Support Service Company under the Minerals Commission of Ghana.

Our Expertise Includes:

- Mine planning, logistics, and infrastructure development.
- Open-pit mining operations, haulage, and stockpile management.
- Quarry operations, bulk material handling, and crushing services.

Sustainable mining solutions and land rehabilitation

PROJECT PIPELINE

Vision

Leading asset manager in Africa's mining industry

Mission

Mission is to mine to create wealth for our people, host communities and Stakeholders

Values

Centrality of Humanity

Dignity in Service

Equity

Environmental Stewardship

CORE SERVICES

MMS offers end-to-end mining and support services, including:

Mine Development: Exploration drilling, infrastructure setup, haul roads, TSFs, and ROM pads.

Mining Operations: Load & Haul, Drill & Blast, Grade control drilling, and Equipment hire.

Quarry & Aggregate Supply: Crushing, screening, stockpiling, and haulage.

Environmental Rehabilitation: Mine closure, land reclamation, and community restoration projects.

PROJECT PIPELINE

Q3 2024

- Project: Bibiani Gold Mine Drill, Load, and Haul Operations in Ghana, operated by Asante Gold Corporation.
- Scope: MMS provides comprehensive drill, load, and haul services, managing ore and waste movement to support gold processing operations.
- Fleet: Full fleet of trucks, excavators, and loaders mobilized on an accelerated timeline.

Q4 2025

- Project: Ewoyaa Lithium Project in Ghana, operated by Atlantic Lithium.
- Haulage Scope: Transport ~2.7 Mt of spodumene concentrate annually from mine to Takoradi Port (110 km).
- Fleet: Heavy-duty trucks (30-40 tonnes capacity), compliant with safety and environmental standards.
- Timeline: 5-year contract starting in 2025, with potential extensions.
- Key Focus: Efficiency, safety, environmental responsibility, and local community engagement.

2025

- Project: Sierra Rutile Mine in Sierra Leone, operated by Sierra Rutile Limited (a subsidiary of Iluka Resources).
- Haulage Scope: Transport rutile, ilmenite, and zircon from the mine to the export facility at John Obey Port.
- Fleet: Heavy-duty trucks, ensuring compliance with safety and environmental regulations.
- Timeline: Multi-year contract aligned with mine production schedules.

Q1 2025

- Project: MMS Zongoiri Gold Project in Ghana, owned and operated by MMS Gold Limited.
- Scope: Development of three open pits (ZC-Central, ZC-East, ZC-West) to extract ~8.4 Mt of ore over an 8-year Life of Mine (LoM).
- Infrastructure: Includes a processing plant with 1.5 Mtpa capacity, targeting annual production of 76,000 ounces of gold, across 4,034.6 hectares.
- Timeline: Project duration aligned with the 8-year LoM, expected to commence upon project development.

ACTIVE PROJECTS

MMS currently operates mining and quarry sites across Ghana and Sierra Leone:

Ghana: Tuna, Asuoboi, Shai Hills, Mankrong, Sawla, Wenchi.

Sierra Leone: Bo City Quarry.

Contract mining at Bibiani Gold Mine – Drill, Load, and Haul Operations

Client: Asante Gold Corporation

CAPABILITY STATEMENT

Equipment Capacity Base

Equipment Capacity Base

MMS, supported by MEL, operates one of Ghana's largest and most diverse equipment fleets.

Earthmoving Equipment:

- **Bulldozers:** 32 units (D8R, D7R, D6R models)
- **Excavators:** 49 units (CAT 320D, Hitachi 350H, Doosan models)
- **Graders:** 23 units (CAT 140M, John Deere 770G models)
- **Wheel Loaders:** 11 units (CAT 980, 950H, John Deere 644K models)

MMS's expertise, financial strength, and logistics capabilities position us as a trusted partner for all Mining Project.

CAPABILITY STATEMENT

Equipment Capacity Base

Haulage Fleet:

- **Tipper Trucks:** 163 units (30cu.m to 22cu.m capacity – Ford, HOWO, Scania)
- **Flatbed Trucks:** 23 units for heavy equipment transport.
- **Fuel Tankers:** 32 units (18,000 to 54,000 liters capacity).

Additional Equipment:

- **Compactors & Paving Machines:** 56 Soil Compactors (CAT CS533, BOMAG BW212)
- **Asphalt Plants & Pavers:** Full asphalt processing and BOMAG pavers.
- **Specialized Equipment:**
 - Concrete Mixers: 30 units.
 - Drilling Machines: 11 units for exploration and blasting.
 - Generators: 10 CAT generators ensuring continuous operations.

CAPABILITY STATEMENT

Safety & Compliance

Safety & Compliance

- **Safety Monitoring:** Near-miss reporting and real-time safety audits.
- **Fatigue Management:** Ensuring well-rested and alert operators.
- **Preventive Maintenance:** Reducing breakdowns and ensuring reliability.
- **Emergency Preparedness:** Regular drills and contingency planning.

Mining Equipment Vendors & OEM Suppliers:

MANTRAC Ghana (CATERPILLAR)

HMD Ghana

SMT Ghana (Volvo)

DEVELON (South Korea)

Kanu Equipment/Tontrac Ghana (XCMG)

Epiroc

Sandvik Ghana

Banking Partners:

Zenith Bank PLC

Zenith Bank UK

Zenith Bank Ghana Limited

STRATEGIC PARTNERSHIPS

FINANCIALS

Financial Overview

- **Revenue Streams:** Mining operations, quarrying, and contracting services.
- **Investment Highlights:** Over \$2.6B worth of asset base.
- **Growth Projections:** Expansion into additional mining operations across West Africa.

SUPPORT

INSPIRATION

RESPONSIBILITY

MOTIVATION

TEAMWORK

LEADERSHIP TEAM

- **Dr. Stephen Kofi Ndede (Executive Director)** – 30+ years in mining operations.
- **Dr. Peter Sampson (Board Member)** – 40+ years in mining project management.
- **Mrs. Wosiela Bobie (Board Member)** – HR and organizational development expert.
- **Ing. Henry Antwi (Board Member)** – Mining engineering and mineral economics specialist.
